

## Sticker Stories - 'The Visitor'

Kidzlink has produced not just one, but two brand new sticker stories. "Not only have we improved the quality of the resource, but because of demand, we've published two versions, one for children under 5 years of age and the other for school age children (6-12 years old)", says Stephen, Kidzlink's Director.

Both versions are filled with age appropriate activities for children that will engage them with the Christmas story. Based on the account of the angel's appearance to Joseph in a dream in Matthew chapter 1, the story will teach children that no matter how bad we might be, God is so kind and provided a rescuer to save us.

The Visitor is designed to be used by children during Christmas Day services, religious classes or as a gift from leaders and teachers on other occasions. The Visitor also can be purchased with a companion CD-rom revision tool. Once completed, The Visitor becomes a useful mini-story that can be re-read to children by their parents.
