

open TO GOD

This March, the BUV are pleased to launch "Open To God: Resources for Decision Making in Church Communities". Like "Fit4Life" before it, Open to God is a practical resource of Bible Studies, group activities, ideas and tools. It invites churches to explore styles of meeting together that move away from "business meetings" - with their regular activities of debate and voting - and instead listen together to one another and to God so as to discern "what the Spirit is saying to the church".

The regional ministers believe that such an approach:

- Leads to better decisions!
- Draws people into deeper community instead of polarising them into factions that win or lose;
- Helps to mature people in Christ as they learn the principles of being open to God;
- Recaptures the sense of the church as a spiritual community and deepens the church's dependence on God;
